dermatologically tested

FAGOCARE[®] gel

for daily skin care with signs of acne

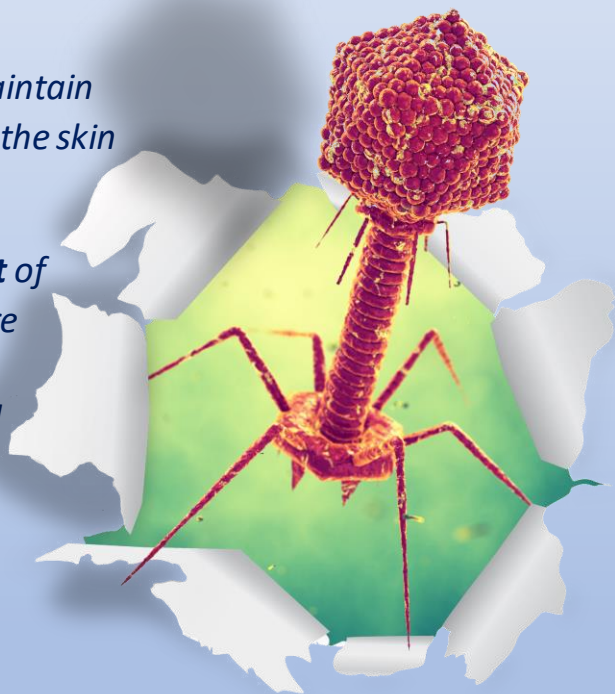

with bacteriophages

Bacteriophages are natural enemies of bacteria.

They are ***microorganisms*** that target unwanted bacteria.

They can be used to maintain the ***natural balance*** of the skin microbiome.

They are a ***natural part*** of our environment, where they help maintain ***biological balance*** and prevent bacterial overgrowth.

Use

Apply twice a day in thin layer onto a clean skin.

Keep in refrigerator. Protect from freeze.
